COMPANY ANNOUNCEMENT **8 February 2010**

JB Hi-Fi reports Sales up 23%, Profit up 29% and Dividend up 120%

JB Hi-Fi Limited today reported a record half year net profit of $76.0 million (HY09 $59.0 million) from $1.554 billion of sales (HY09 $1.262 billion) for the six months ending 31 December 2009.

Comparable store sales growth for the period was 9.9% (Australia 10.2%, NZ 5.8%). Gross Margins remained relatively stable (down 26 bps: Aust down 19bps, NZ down 196 bps) despite competitor discounting and the strong performance of low margin categories. The company's cost of doing business was down 39 bps to 13.2% (HY09 13.6%). EBIT Margin increased 10 bps to 7.2% (HY08 7.1%). Cashflow from Operations was strong at $168.4 million for the half year.

The company has raised its dividend declaring a fully franked dividend of 33.0 cents per share, an increase of 120% (HY09 15.0 cents). The dividend will be paid on 5 March 2010. The record date for determining the entitlement is 17 February 2010. This dividend is based on a full year payout ratio of 60%, up from our previous target of 50%.

Sales in December were solid across almost all categories, with comparable store sales a solid 6.5%.

"We are once again extremely pleased with this strong result, particularly the comparable store sales growth of 6.5% in December, when compared to the prior corresponding period, which was impacted by the government's stimulus package" said CEO Richard Uechtritz. "JB has proven to be very resilient throughout the economic downturn which led to low consumer confidence and spend. This performance is testament to our strong retail model and the depth and strength of our management team."

"We continue to grow our market share as recently opened stores mature, we open new stores, expand our offering and reduce our prices on the back of increased economies of scale and a continued focus on costs" he said.

The company opened 15 new stores in the half and should open 7 new stores in the second half of FY10 bringing the total new stores for the year to 22 which will be the largest number it has opened in any year since formation. The maturing of the 39 stores opened in the last two financial years and the 22 new stores in 2010 will continue to drive solid top and bottom line revenue and earnings growth.

New Zealand is starting to show signs of improved trading from the 9 JB stores (JB store comps 12.1%) as we increase our scale, buying power and grow brand recognition. In January the company closed 3 of the remaining 4 Hill and Stewart stores whose leases had expired. "This will allow us to concentrate on what we do best ie grow the strong JB Hi-Fi model" said CEO Richard Uechtritz. "We expect to open at least a further 3 to 4 JB stores in New Zealand calendar year 2010" he said.

The group currently has 134 stores (124 Australia, 10 NZ), of which 122 are JB Hi-Fi branded stores. The company is targeting 210 JB Hi-Fi branded stores and plan to open 13 to 15 stores per annum. With this rollout the company can look forward to at least 5 to 6 years of good sales and earnings growth.

Sales in January have met internal expectations with comparable store sales at 7.2%. Whilst the retail outlook continues to be uncertain, the company is cautiously optimistic that it will have another strong year. JB confirms its previous guidance that sales will be circa $2.8 billion or a 20% increase on the prior financial year, and expects Net Profit after Tax to be in the range of $117 million to $120 million or a 24% to 27% increase on the prior year.

Independent Auditor's Review Report to the Members of JB Hi-Fi Limited

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of JB Hi-Fi Limited, which comprises the condensed consolidated statement of financial position as at 31 December 2009, and the condensed consolidated income statement, condensed consolidated statement of comprehensive income, condensed consolidated statement of cash flows, condensed consolidated statement of changes in equity for the half-year ended on that date, selected explanatory notes and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the end of the half-year or from time to time during the half-year as set out on pages 5 to 14.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation and fair presentation of the half-year financial report in accordance with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Act 2001. This responsibility includes establishing and maintaining internal control relevant to the preparation and fair presentation of the half-year financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of an Interim Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2009 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of JB Hi-Fi Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Auditor's Independence Declaration

In conducting our review, we have complied with the independence requirements of the Corporations Act 2001.

Deloitte.

Conclusion

(a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2009 and of its performance for the half-year ended on that date; and

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

for the half-year ended 31 December 2009

1. SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

The half-year financial report is a general purpose financial report prepared in accordance with the Corporations Act 2001 and AASB 134 *Interim Financial Reporting*. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*. The half-year financial report does not include notes of the type normally included in an annual financial report and shall be read in conjunction with the most recent annual financial report.

Basis of preparation

The condensed consolidated financial statements have been prepared on the basis of historical costs, except for the revaluation of certain financial instruments to fair value. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

The company is a company of the kind referred to in ASIC Class Order 98/100, dated 10 July 1998, and in accordance with that class order amounts in the half-year financial report are rounded off to the nearest thousand dollars, unless otherwise indicated.

The accounting policies and methods of computation adopted in the preparation of the half-year financial report are consistent with those adopted and disclosed in the company's 2009 annual financial report for the financial year ended 30 June 2009, except for the impact of the adoption of the new and revised accounting policy's discussed below. These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

The Group has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB) that are relevant to its operations and effective for the current annual reporting period. The adoption of these new and revised Standards and Interpretations did not have any material financial impact on the amounts recognised in the financial statements of the Group for the current or prior periods.

In addition to the above, the adoption of the following new and revised standards have resulted in changes to the Group's presentation, or disclosure, in its half-year financial report as follows:

- presentation of the financial statements. As a consequence of the adoption of AASB 101 *Presentation of Financial Statements (2007)* and its associated amending standards, an additional statement has been included in the financial statements (statement of comprehensive income) and what was previously termed the "balance sheet" is now the statement of financial position.
- information about the Group's segments. The adoption of AASB 8 *Operating Segments* and AASB 2008-3 *Amendments to Australian Accounting Standards arising from AASB 8* has resulted in amended segment disclosures but has no impact on the reported results or financial position of the Group.

2. SEGMENT INFORMATION

The Group has adopted AASB 8 'Operating Segments' with effect from 1 July 2009.

AASB 8 replaces AASB 114 'Segment Reporting'. The new standard requires a 'management approach', under which operating segments are identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance.

The Group's chief operating decision maker has been identified as the Chief Executive Officer.

The Chief Executive Officer reviews the financial and operating performance of the business primarily from a geographic perspective. On this basis management has identified two reportable segments, Australia and New Zealand. The Chief Executive Officer monitors the performance of these two geographic segments separately. The Group does not operate in any other geographic segment.

2. SEGMENT INFORMATION (CONT.)

The segment information provided to the Chief Executive Officer for the reportable segments for the half year ended 31 December 2009 is as follows:
